California Penal Code Section 13300 requires that the applicant or subject of the local record have access to the local record "when needed in the course of their duties" The California Department of Justice has interpreted this to mean, through legislative intent, as allowing the subject of have access to the record for any purpose which the subject feels is necessary. They also determined that this agency MAY impose a more stringent requirement(s) than previously mentioned to allow the subject to review their records.

In the space below, please indicate the reason(s) for which you believe it is necessary for you to review your local summary criminal history information of the Tulare County Sheriff's Department. In any matter of dispute, the Sheriff of the Tulare County Sheriff's Department will be the final approving authority for the release of your records for your own review.
